# UTAH ATHLETICS FINANCIAL TRACKING

# Our Goal

Our goal for this project is to help the Utah Athletic Administration **keep up with the rapid growth** of the Utes sports programs.

We created a website portal to help administrators and employees make effective decisions on expanding the department to satisfy the needs of not only the athletes, but the supporters. **Our system allows these users to create, read, update and delete current athletes, equipment, events, income, rankings, scholarships, and overall team management.**

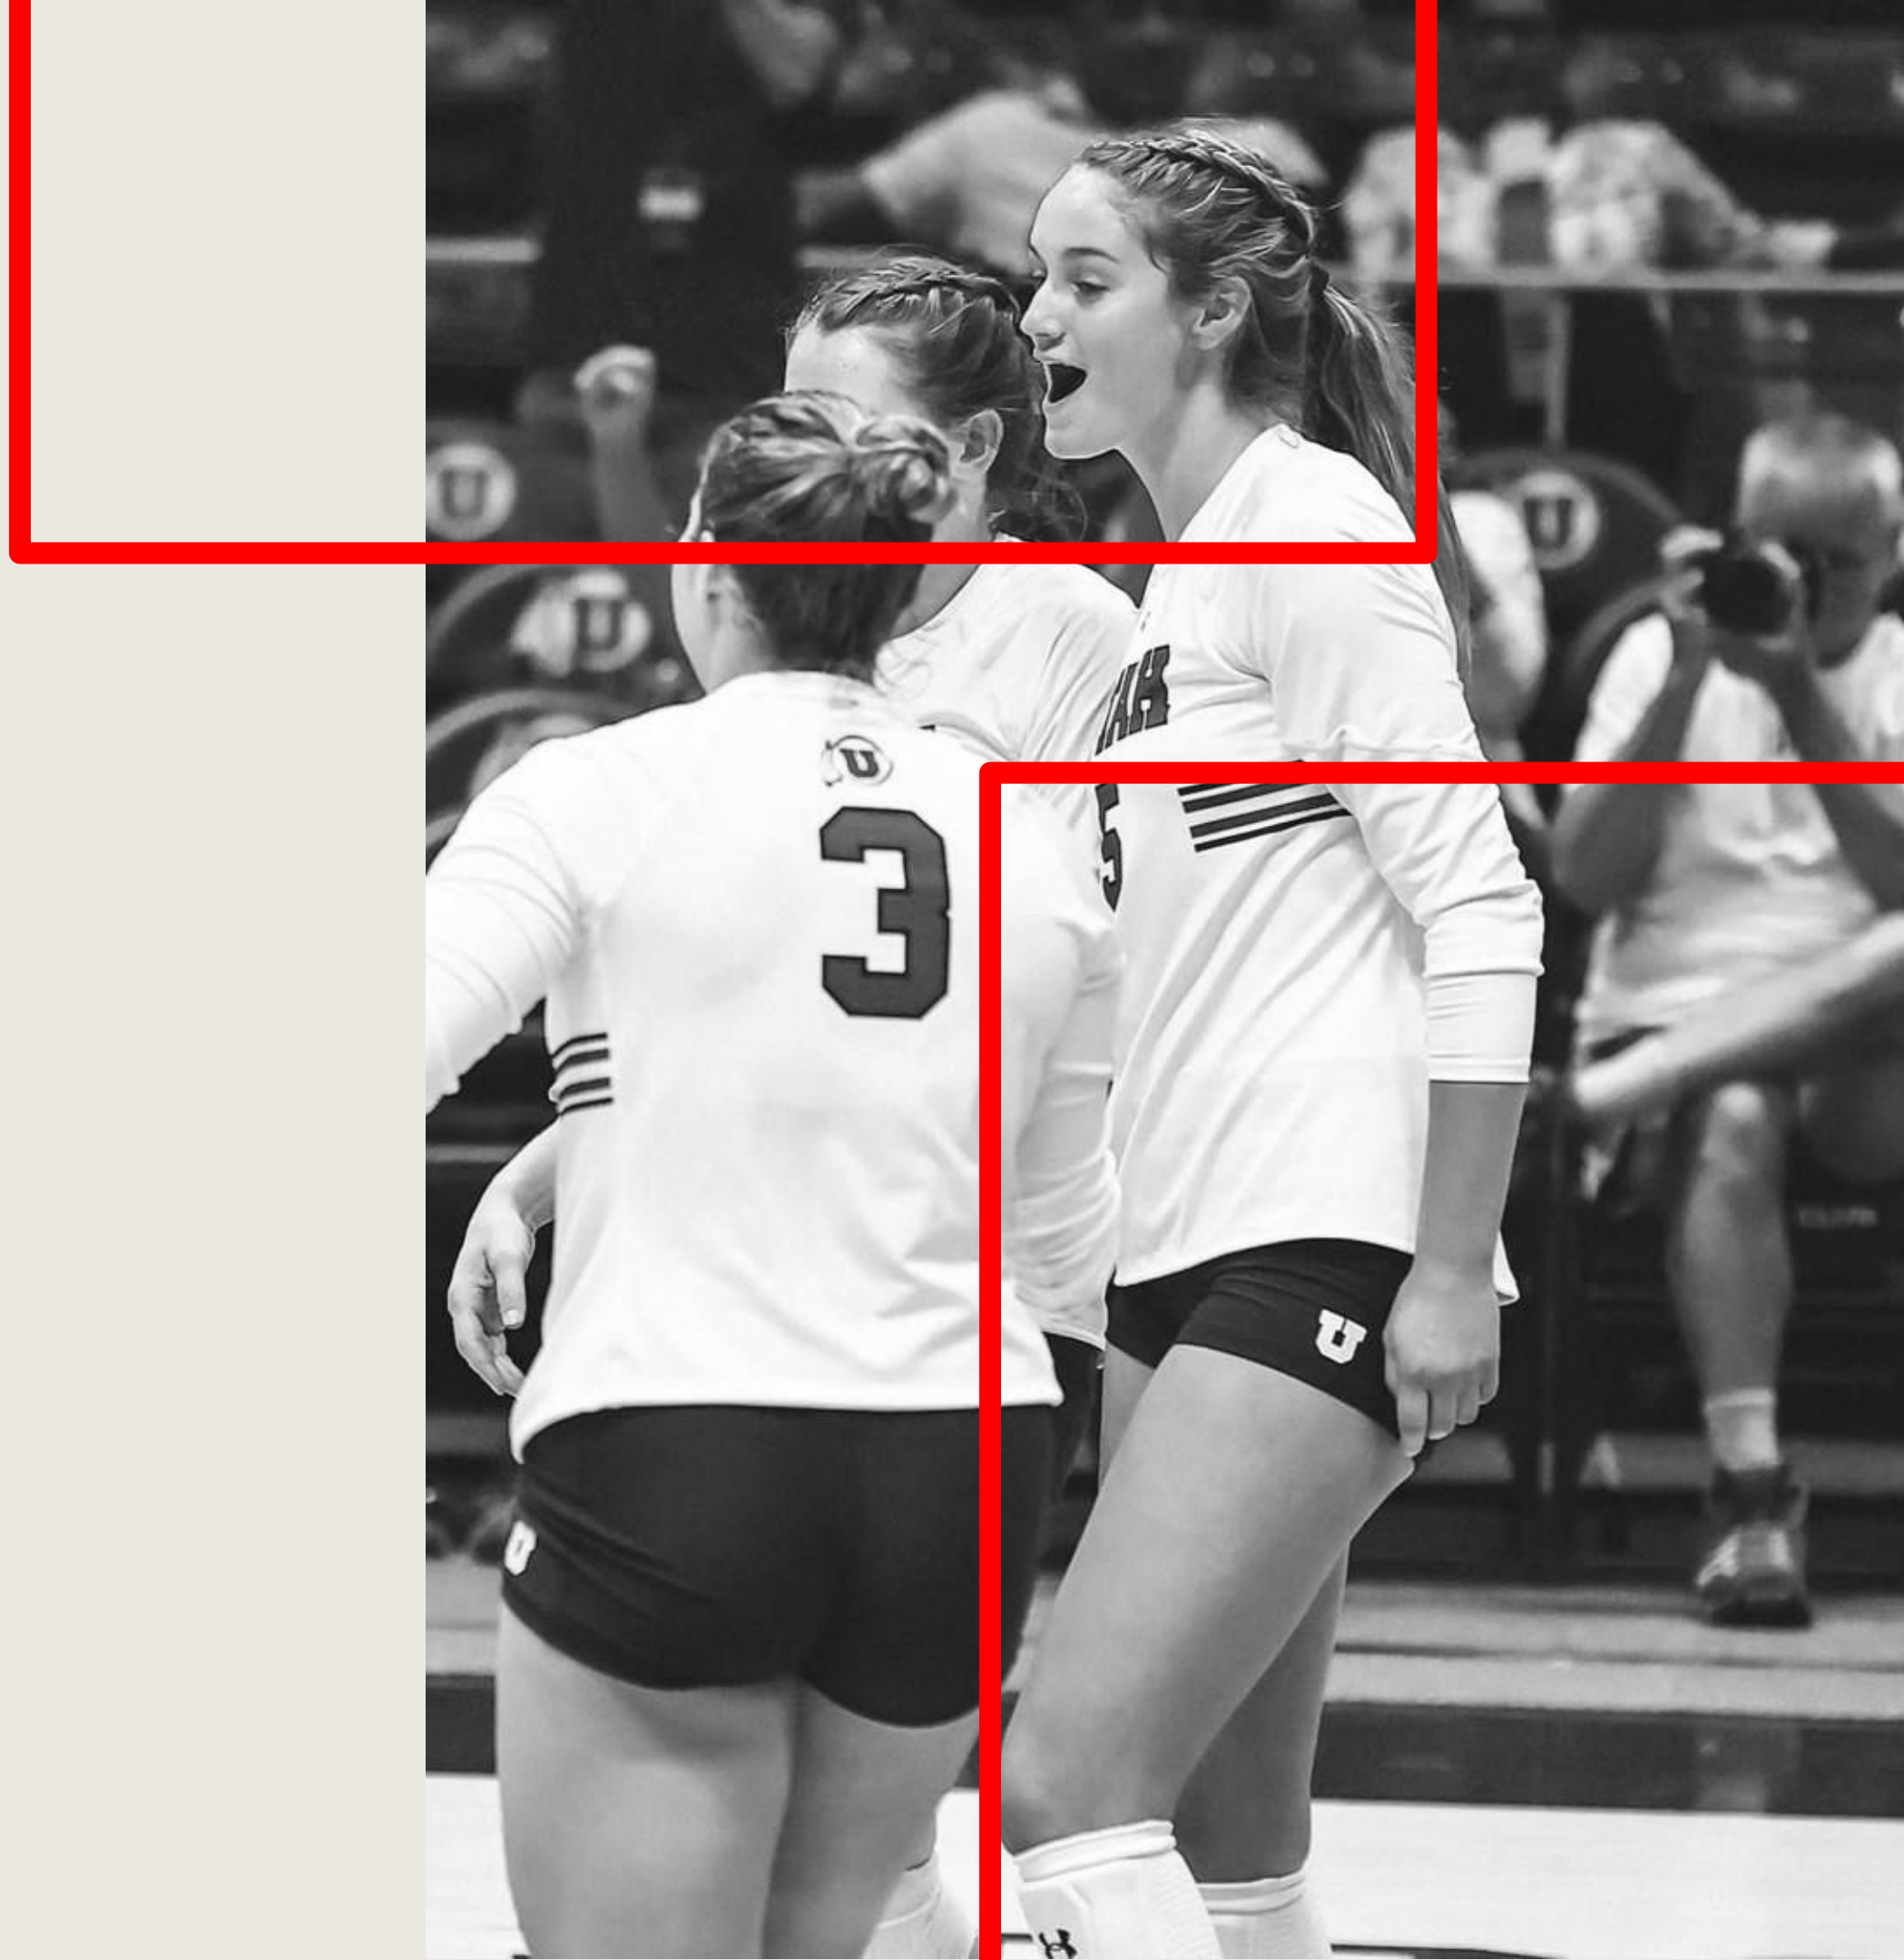

## Administrator Use cases:

- Login and User Management
- Generate report to show income vs. cost for every team at the U.
- Generate report to show income vs. cost for each time over multiple seasons.

# Employee Use Cases:

- (Add/View/Update/Delete):
- Team
- Employee (including salary/wages)
- Athlete (including scholarship)
- Equipment
- Enter Income for a specific team
- Event for a team
- Post ranking for a team
- Login and user management

## Authentication, Login, and Overall Security

- Authorization login
- Session management
- Logout/destroy session
- Admin can view financials
- Employee can view team roles

- Organization objective
- Ethics and critical thinking within our application
